

# SUGGESTED WIRING OF OUR VT-1 AND VT-2 VOLUME/TONE CONTROL KITS

This document contains the typical wiring for our Volume/Tone control kits and how they are connected to our *revolutionary* patented **Pickup Tone Multiplier™** switching system boards. The wiring is for right-hand use. **VT-1** (500K audio-taper, stacked pot) and **VT-2** (500K audio-taper separate pots).

For other wiring details, go to <http://www.AweSome-Guitars.com/docs>
